

Our conference brings together the collective wisdom of the growing imagery movement. Join us as we explore and uncover the importance and power of working with imagery residing beneath the surface of everyday activity. We celebrate our roots in guided imagery and we are expanding our wings to include imagery in all of its practices...

Join us as we explore the dynamic of image through the practice of C. G. Jung's Active Imagination, through contemplative arts practice, poetry, story and more.

Presenters:

- Nancy Galindo, Ph.D., Depth
 Psychology: Active Imagination:
 discovering the wonder and wisdom of inner images.
